

Artifact and Version History

Strategy / system blueprint

A working strategy document evolved through multiple versions as decisions were locked. The current consolidated reference is:

Vossie_Platform_Strategy_Differentiation_System_Blueprint_v12.pdf

Earlier versions captured the evolving money model, authentication, cross-campus transfer, inventory, Reels, communications and integration decisions.

Engineering/research artifacts

Major engineering artifacts include:

- EduHackers_Developer_Build_Workflow_Technical_Research_Dossier.pdf and later revisions.
- EduHackers_Full_Developer_System_Architecture_Research_Dossier.pdf
- Vossie_Implementation_Specification.pdf
- Vossie_Developer_Architecture_and_Build_Guide.pdf

UI/UX artifacts

- Vossie_Full_UIUX_Page_Architecture.pdf
- Vossie_177_Screen_Map.pdf
- Vossie_Marketplace_Brand_UIUX_Profile.pptx
- Vossie_Motion_and_Interactive_3D_Showcase.pdf

Developer Series

- Vossie_Developer_Series_1_v3.pdf
- Vossie_Developer_Series_2_v1.pdf
- Vossie_Developer_Series_3_Draft_2_Final_Workflow.pdf
- Vossie_Developer_Series_4_Cinematic_Pitch_Production_Blueprint_v2.pdf

Business/marketing artifacts

- Vossie_Business_Analysis_and_Market_Research_2026.pdf
- Vossie_CMO_Marketing_Advertising_Playbook_2026.pdf
- Vossie_Visual_Advertising_Pack_2026.pdf

Prototype

Known hosted prototype reference:

<https://vossie-marketplace.paballokali11.chatgpt.site>

The hosted prototype is reference material, not the ultimate source of truth when it conflicts with later specifications.

Figma

Later work created/used dedicated Vossie Figma production files. Their purpose is to convert the approved Brand Identity + architecture into reusable native components and responsive screen families.
